Each teacher has the privilege of being an initiator of improvement, as well as a reactor to changing conditions, and the principals shall be involved in curriculum development.

From the staff, the Superintendent may appoint curriculum study committees; and their findings, as well as the collective judgments of the staff about the pertinence of various possible changes, shall be submitted by the Superintendent to the Board of Education for consideration in the forming of curriculum policy.

Curriculum Evaluation

The Board of Education shall direct a continuing evaluation of the curriculum as part of a program of instructional improvement. All aspects of the curriculum shall be subjected to a searching and critical analysis in an attempt to improve the learning and growth of students.

The administrative staff shall evaluate the curriculum in a systematic manner involving school personnel and others as appropriate and make periodic recommendations for action by the Board. The Board of Education from time to time may invite teachers or others to discuss the curriculum.

SUBJECT: INSTRUCTIONAL TECHNOLOGY

The Board of Education recognizes its responsibility to further the District's educational goals through the use of appropriate and high quality technology.

Continuing advances in technology are bringing about changes that have an increasing impact on the way we obtain, process, evaluate and use information. Therefore, the District is committed to:

- a) A comprehensive staff development program to ensure appropriate and effective use of technology.
- b) The preparation of students to utilize multiple types of technology.
- c) The integration of technology within and across all curriculum areas.
- d) The equitable distribution and access to technological equipment and materials for all students.
- e) The promotion of technology as an alternative to traditional methods of gathering, organizing and synthesizing information.
- f) The provision of sufficient funds, within the budgetary constraints of the Board, for the implementation of technology instruction.

The Board directs the Superintendent or his or her designee to assess the technological needs of the District's instructional program, research and review current materials and make recommendations to the Board.

Instruction

SUBJECT: INTERNET SAFETY/INTERNET CONTENT FILTERING

In compliance with the Children's Internet Protection Act (CIPA) and regulations of the Federal Communications Commission (FCC), the District will ensure the use of technology protection measures (i.e., filtering or blocking of access to certain material on the Internet) on all District computers with Internet access. These technology protection measures apply to Internet access by both adults and minors with regard to visual depictions that are obscene, pornographic, or, with respect to the use of computers by minors, considered harmful to students. The District will provide for the education of students regarding appropriate online behavior including interacting with other individuals on social networking websites and in chat rooms and regarding cyberbullying awareness and response. Further, appropriate monitoring of online activities of minors, as determined by the building or program supervisor, will also be enforced to ensure the safety of students when accessing the Internet.

Further, the Board's decision to utilize technology protection measures and other safety procedures for staff and students when accessing the Internet fosters the educational mission of the District, including the selection of appropriate instructional materials and activities to enhance the schools' programs and to help ensure the safety of personnel and students while online.

However, no filtering technology can guarantee that staff and students will be prevented from accessing any inappropriate sites. Proper safety procedures, as deemed appropriate by the applicable administrator or program supervisor, will be provided to ensure compliance with the CIPA.

In addition to the use of technology protection measures, the monitoring of online activities and access by minors to inappropriate matter on the Internet may include, but will not be limited to, the following guidelines:

- a) Ensuring the presence of a teacher and/or other appropriate District personnel when students are accessing the Internet including, but not limited to, the supervision of minors when using email, chat rooms, instant messaging, and other forms of direct electronic communications. As determined by the appropriate building administrator, the use of email, chat rooms, as well as social networking websites, may be blocked as deemed necessary to ensure the safety of students;
- b) Monitoring logs of access in order to keep track of the websites visited by students as a measure to restrict access to materials harmful to minors;
- c) In compliance with this Internet Safety Policy as well as the District's Acceptable Use Policy (AUP), unauthorized access, and other unlawful activities by minors are prohibited by the District and student violations of these policies may result in disciplinary action; and
- d) Appropriate supervision and notification to minors regarding the prohibition as to unauthorized disclosure, use, and dissemination of personal identification information regarding students.

(Continued)

Instruction

SUBJECT: INTERNET SAFETY/INTERNET CONTENT FILTERING (Cont'd.)

The determination of what is "inappropriate" for minors will be determined by the District and/or designated school official(s), the definition of which may vary depending on the circumstances of the situation and the age of the students involved in online research.

The terms "minor," "child pornography," "harmful to minors," "obscene," "technology protection measure," "sexual act," and "sexual contact" will be as defined in accordance with CIPA and other applicable laws or regulations.

Under certain specified circumstances, the blocking or filtering technology measure(s) may be disabled for adults engaged in bona fide research or other lawful purposes. The power to disable can only be exercised by an administrator, supervisor, or other person authorized by the District.

The District will provide certification, in accordance with the requirements of CIPA, to document the District's adoption and enforcement of its Internet Safety Policy, including the operation and enforcement of technology protection measures (i.e., blocking or filtering of access to certain material on the Internet) for all District computers with Internet access.

Internet Safety Instruction

In accordance with New York State Education Law, the District may provide to students in grades K through 12 instruction designed to promote the proper and safe use of the Internet. The Commissioner will provide technical assistance in the development of curricula for this course of study which will be age appropriate and developed according to the needs and abilities of students at successive grade levels in order to provide awareness, skills, information, and support to aid in the safe usage of the Internet.

Additionally, students will be educated on appropriate interactions with other individuals on social networking websites and in chat rooms, as well as cyberbullying awareness and response.

Access to Inappropriate Content/Material and Use of Personal Technology or Electronic Devices

Despite the existence of District policy, regulations, and guidelines, it is virtually impossible to completely prevent access to content or material that may be considered inappropriate for students. Students may have the ability to access this content or material from their home, other locations off school premises, and/or with a student's own personal technology or electronic device on school grounds or at school events.

The District is not responsible for inappropriate content or material accessed via a student's own personal technology or electronic device or via an unfiltered Internet connection received through a student's own personal technology or electronic device.

(Continued)

SUBJECT: INTERNET SAFETY/INTERNET CONTENT FILTERING (Cont'd.)**Notification/Authorization**

The District's AUP will be disseminated to parents and students in order to provide notice of the school's requirements, expectations, and student's obligations when accessing the Internet.

The District has provided reasonable public notice and has held at least one public hearing or meeting to address this policy prior to Board adoption. Additional public notice and a hearing or meeting is not necessary if and when amendments are made to this policy.

This policy must be made available to the FCC upon request. Furthermore, appropriate actions will be taken to ensure the ready availability to the public of this policy as well as any other District policies relating to the use of technology.

This policy is required to be retained by the school for at least five years after the funding year in which the policy was relied upon to obtain E-rate funding.

SUBJECT: USE OF VIDEOTAPES, FILMS OR OTHER MEDIA WITH STUDENTS

The Cairo-Durham Central School District Board of Education seeks to ensure the optimal use of instructional time. The Board also seeks to ensure that the instructional materials used in District classrooms are appropriate to the age of the students, and are in accord with the curriculum. In addition, the Board seeks to assure that students, while in the care of the District, are exposed only to materials that are consistent with the objectives and goals of the District. To further these ends, the Board establishes the following rules regarding the use of commercially-produced or other films, videotapes, compact discs, laser disks, or other media materials in the District's program of instruction and related activities.

SUBJECT: SCHOOL CEREMONIES AND OBSERVANCESCommemoration of National Holidays Encouraged

The Board of Education of the Cairo-Durham Central School District recognizes the value of certain ceremonies and observances in promoting love of country and good citizenship among the students. The Board, therefore, encourages activities in the Cairo-Durham Central Schools that commemorate national holidays such as Memorial Day, Thanksgiving Day, and Presidents' Day.

Board Impartiality Regarding Religion

The Board remains impartial with regard to religion. It seeks neither to advance nor to inhibit religion. Students, faculty, and administration must be always mindful of the diversity of religious beliefs to be found in this community and in this nation, and must, therefore, in order to ensure civility among those who hold different views and beliefs, be conscious of and respect the sensitivities of others. Therefore, no religious celebrations, including organized prayer, Bible reading, or other activities performed in a religious context, shall be encouraged or endorsed by the Board.

Activities Related to Observance of Religious Holidays

The Board recognizes nonetheless that activities related to the celebration of religious holidays may present an excellent opportunity to teach about religion and to foster respect and understanding among students. The Board further recognizes that educational goals that are motivated by secular purposes cannot always eliminate religious aspects, and may sometimes require the presentation of material with religious themes. Therefore, activities related to the observance of religious holidays will be permitted, but only to the extent that they foster appropriate educational goals and are conducted in a manner that is unbiased and objective, focusing on the origins of the holiday, its history, and the generally agreed upon meaning of the holiday observance.

In planning activities related to a religious holiday or theme, special effort shall be made by instructional and administrative staff to ensure that the activity is in no way devotional, and also that students of all faiths or no faith can join without feeling that they are betraying their own beliefs. Therefore:

- a) School and class plays shall not be overtly religious;
- b) Religious music shall not predominate in the music that is performed or presented; and
- c) Program notes, illustrations, and decorations shall not be religious or sectarian.

Display of Religious Objects or Symbols

The display of religious objects or symbol is also prohibited except to the extent that what is displayed is used as a teaching aid or resource to provide examples of cultural or religious heritage

Instruction

SUBJECT: SCHOOL CEREMONIES AND OBSERVANCES (Cont'd.)

within the context of a short-term study in the curriculum, such as world religions, art, or history. Symbols that are secular and seasonal in nature, such as Santa Claus or Easter bunnies, can be displayed in a seasonal context without reference to religion.

Student Request to be Excused from Education Activities Related to Observance of Religious Holiday

Any student shall, upon request, be excused from taking part in those programs or parts of programs or the curriculum involving a religious theme that conflicts with the student's own religious beliefs.

Prayers of Benediction at School Ceremonies Prohibited

Prayers of benediction shall not be included as part of School District ceremonies, including graduations, even if attendance at such functions is not mandatory.

SUBJECT: INSTRUCTIONAL MATERIALS**Textbooks**

The term "textbook" refers to a book supplied to a student for a fixed period of time for his or her personal use and basic to the study of a subject. The Board will make provision for funds to be budgeted for the purchase of textbooks and related instructional materials.

Upon the recommendation of the Superintendent, the Board will designate the textbooks to be used. Textbooks, once designated, cannot be superseded within a period of five years except by a 3/4 vote of the Board.

The District participates in the National Instructional Materials Access Center (NIMAC). The District will be responsible to ensure that each student who requires instructional materials in an alternate format will receive it in a timely manner and in a format that meets NIMAS standards. Contracts with publishers executed on and after December 3, 2006 for textbooks and other printed core materials must include a provision that requires the publisher to produce NIMAS files and send them to the NIMAC (this will not add any cost to the contract).

Students will be required to pay for lost books or for excessive damage to books.

Textbooks for Resident Students Attending Private Schools

Resident students attending private schools will be supplied non-sectarian textbooks in accordance with the requirements of Education Law. The District may ask for evidence that the selected textbook is used in one or more public school districts in the state. This evidence may include an authenticated list of public school districts using the textbook from the publisher.

Workbooks

The term "workbook" refers to the type of book that provides spaces to write in and is consumed each year. It is usually paper-covered and designed to be used in connection with a textbook. The Board must approve the expenditure of funds for the purchase of workbooks and manuals.

Calculators

The District can require students to provide their own "supplies" such as pencils, pens, paper, etc. Calculators do not fall into this category and must be considered like classroom teaching materials for which the District is authorized to levy a tax. In addition, the District may purchase, and must still provide, calculators even if operating under a contingent budget if the calculators are required for participation in an educational program. The New York State Education Department requires the use of calculators for intermediate and high school level mathematics and science assessments. Students will not be charged for a calculator or otherwise required to purchase one in order to participate in an educational program of the District.

SUBJECT: INSTRUCTIONAL MATERIALS (Cont'd.)**Instructional Computer Hardware**Loan to Students Attending Nonpublic Schools in the District

The District will loan, upon request of an individual or a group of individual students, to all students legally attending nonpublic elementary or secondary schools located in the District, instructional computer hardware in accordance with applicable law and regulations.

Instructional computer hardware will be loaned free of charge, subject to rules and regulations as are or may be prescribed by the Board of Regents and school authorities, and will be required for use as a learning aid in a particular class or program. Instructional computer hardware containing computer software programs which are religious in nature or content will not be purchased or loaned by the District.

The District is not required to loan instructional computer hardware to nonpublic school students in excess of that acquired in accordance with Education Law Section 753 and will be loaned on an equitable basis to children attending nonpublic schools in the District and to students with disabilities residing in the District who attend approved programs. However, the District will not be required to loan instructional computer hardware purchased with local or federal funds or with state funds, other than Instructional Computer Hardware Aid funds.

School authorities will specify a date by which written requests for the purchase and loan of instructional computer hardware must be received by the District. This date will not be earlier than the first day of June of the school year prior to that for which instructional computer hardware is being requested. For a child not attending a nonpublic school prior to June first, the parent or guardian may submit a written request for instructional computer hardware within 30 days after the child is enrolled in the nonpublic school. In no event, however, will a request made later than the times otherwise provided in accordance with Education Law Section 754 be denied where a reasonable explanation is given for the delay in making the request. All nonpublic schools in the District will be notified of the specified date.

The form of request used by a lending District may provide for a guarantee by a parent or guardian for the return of the hardware or, in the case of loss or damage, for payment of its value.

Instruction

SUBJECT: RELIGIOUS EXPRESSION IN THE INSTRUCTIONAL PROGRAM

The Board of Education acknowledges the importance of religion to the understanding of society and the richness of the human experience. In approaching the teaching about religion in the school, the District will be guided by three concepts when making decisions about the appropriateness of activities for inclusion in the school program: the activity should have a secular purpose; the activity should neither advance nor inhibit religion; and the activity must not foster an excessive entanglement of "government" with religion.

Nurturing the development of knowledge and respect for the rights of all cultural and religious groups is a continuing goal of the School District. Students, faculty and administration are reminded of the pluralism of religious beliefs and are urged to be conscious of and respect the sensitivity of others.

Opportunities to learn about cultural and religious traditions should be provided within the framework of the curriculum. Information about religious and cultural holidays and traditions focusing on how and when they are celebrated, their origins and histories should be part of this instruction. This educational opportunity should be handled with great care, sensitivity and respect for the feelings and beliefs of individuals.

An environment should be created and encouraged where students of various ethnic backgrounds feel comfortable in sharing comments about their religious and cultural traditions. No student should be singled out to share or participate in such discussions solely on the basis of that student's identification with the cultural/religious heritage being addressed. A student's preference not to share or participate in such discussions should be honored and respected without penalty.

School Activities Related to Religious Holidays or Themes

School activities related to the teaching about religious holidays or themes must be consistent with, representative of, and congruent with the District's curriculum.

In planning school activities related to the teaching about religious holidays or themes, special effort must be made to ensure that the activity is not devotional and that students of all faiths can join without feeling they are betraying their own beliefs.

In planning school activities related to the teaching about religious holidays or themes, age appropriate activities are encouraged within the framework of the curriculum. Teaching about religious and cultural holidays may include such special activities as parties and special foods, if they reinforce educational goals.

Symbols in the Schools

The purpose of using religious symbols should be to teach about religious concepts and traditions, and to convey historical or cultural content, not to promote or celebrate religious concepts, events or holidays.

(Continued)

SUBJECT: RELIGIOUS EXPRESSION IN THE INSTRUCTIONAL PROGRAM (Cont'd.)**Music in the Schools**

The purpose of using religious music should be to teach musical concepts, to convey historical and cultural content, or to create aesthetic experiences in a setting which emphasizes artistic expression and educational value, not to promote or to celebrate a religious faith.

Curriculum Areas in Conflict with Religious Beliefs

Students shall be given the option to be excused from participating in those parts of an activity, program, or area of instruction involving a religious theme which conflicts with their own religious beliefs or that of their parents or guardians in accordance with applicable law and regulations. Alternatives may be provided that are of comparable instructional value.

Implementation

Administrative regulations will be developed to implement the terms of this policy. Further, the District will make this policy and accompanying regulations in order to ensure community, faculty, student, and parental or guardian awareness.

SUBJECT: SUMMER SCHOOL

The Cairo-Durham Central School District Board of Education believes that attendance at summer school is of great advantage to certain pupils. These pupils will be in an academic environment during the summer months providing them with instruction that enables them to pass academic courses. The Board does not intend, however, that summer school be a means for circumventing the existing home-school program.

The Board therefore establishes that the District may provide a summer school program, consistent with facilities, curriculum, certification, time and other requirements set forth in the regulations of the Commissioner of Education. The Board further establishes that, to be eligible for attendance at summer school, a pupil shall meet the following conditions:

- a) No pupil may transfer in a total of more than five units of summer school credit (as credit is defined in Policy #4770 -- Graduation Requirements) in earning the 22 credits necessary for the award of a local or Regents diploma.
- b) A pupil who attends summer school may take no more than two courses in summer school during any one summer school term.
- c) A pupil who wishes to take a course or courses in summer school shall be required to have prior express approval of the high school principal as a condition of attendance.
- d) It shall not be required that the District provide transportation for any students participating in summer school. This restriction may be inapplicable in certain cases of students with disabilities.

Nothing in this Policy shall be understood to operate as a restriction or to impose additional conditions for attendance in a summer program on any student who, because of his or her disability, has need of a structured learning environment of 12 months durations in order to maintain his or her developmental level.

SUBJECT: FIELD TRIPS

The Board of Education recognizes that field trips are an educationally sound and important ingredient in the instructional program of the schools.

For purposes of this policy, a field trip shall be defined as any journey by a group of students away from the school premises, under the supervision of a teacher, which is an integral part of an approved course of study and conducted for the purpose of affording a first-hand educational experience not available in the classroom.

Field trips are a part of the curriculum of the schools, and student conduct and attendance on field trips are governed by the same rules that govern regular classroom activities. The School System shall obtain written parental or guardian permission for students going on school-sponsored field trips.

The Superintendent shall prepare procedures for the operation of a field trip activity. Field trip support shall be determined annually by the Board during its budget deliberations. Regardless of the fiscal support for field trips, the rules of the School District for approval and conduct of such trips shall apply.

The Superintendent or designee may cancel previously approved field trips due to extenuating circumstances.

Senior Trip

The Cairo-Durham Central School District Board of Education believes that the senior class trip should be a positive educational experience.

The senior trip, the Board believes, should encompass the study of people: their customs, religion, history, economy, and the geographical and climatic factors that affect their lives.

SUBJECT: HOME INSTRUCTION (HOME SCHOOLING)

The School District will attempt to cooperate with parents who wish to provide home instruction for their children. The child who is educated at home should receive an education in a manner consistent with an educational plan and at least substantially equivalent to that given to students of like age and attainments in the local public schools. The required subjects should be taught in a competent, systematic, and sequential manner, specifically in relation to the required courses as enumerated in Commissioner's Regulation Section 100.10.

Primary responsibility for determining compliance with Commissioner's regulations addressing home instruction rests with the Superintendent of Schools of the school district in which a home-instructed student resides.

Provision of Services to Home-Instructed Students

Home-Instructed students are not awarded a high school diploma. A high school diploma may only be awarded to a student enrolled in a registered secondary school who has completed all program requirements set by the Board of Regents, the school or the District.

a) Extracurricular Participation

Students instructed at home are *not* eligible to participate in interscholastic sports. Commissioner's regulations mandate that only students enrolled in the public school are allowed to participate in interscholastic sports. Further, the District *does not* permit home-instructed students to participate in any extracurricular activities.

b) Textbooks and Materials

The District is not required to loan available textbooks and other materials (e.g., library materials, microscopes, computer software, movie projectors) to home-instructed students. However, the School District *shall provide* home-instructed students with such textbooks and materials.

c) Health Services

The School District is *not required* to furnish health services.

d) Remedial Programs

The District *is not responsible* for providing remedial programs.

e) Career and Technical/Gifted Education

SUBJECT: HOME INSTRUCTION (HOME SCHOOLING) (Cont'd.)f) Special Education Services

Solely for the purpose of Education Law Section 3602-c, home-instructed students with disabilities are deemed to be students enrolled in and attending a nonpublic school, which enables them to receive special education services, as well as to be included for computation of state aid for such education by the District.

The Committee on Special Education (CSE) will develop an Individualized Education Services Program (IESP) for the student. The IESP shall be developed in the same manner and with the same content as an IEP. The Board of Education will determine a location where special education services are to be provided to a home-instructed student. This location may, but is not required to be, in the student's home.

g) Use of School Facilities

Students instructed at home shall be allowed to use school facilities provided that there is a mutual agreement on the part of all involved parties.
